Description :

PDF-f20d3 | The nature of scientific activity has changed dramatically over the last half century, and the objectivity and rigorous search for evidence that once defined it are being abandoned. Increasingly, this text argues, dogma has taken the place of authentic science. This study examines how conflicts of interest--both institutional and individual--have become pervasive in the science world, and also exp... *Dogmatism in Science and Medicine: How Dominant Theories Monopolize Research and Stifle the Search for Truth*
