Description :

PDF-3d21d | Any scientist or technician involved in pre-clinical drug studies knows that infusing animal models with test substances is no simple matter, especially if one wants to do it humanely as well as guarantee results that are not compromised by the procedure. The challenge becomes compounded if one is employing a variety of species. What works for a rat or mouse does not necessarily work for a rabbit ... *Handbook of Pre-Clinical Continuous Intravenous Infusion*
