## Paths to Innovation: Discovering Recombinant DNA, Oncogenes, and Prions, in One Medical School, Over One Decade (Perspectives in Medical Humanities) PDF

by Henry R. Bourne : **Paths to Innovation: Discovering Recombinant DNA, Oncogenes, and Prions, in One Medical School, Over One Decade (Perspectives in Medical Humanities)**

ISBN : #0983463921 | Date : 2011-11-01

Description :

PDF-85513 | "In less than a decade, scientists at the University of California San Francisco (UCSF) learned how to clone DNA, founded the company that created the field of biotechnology, identified the first cancer genes, and made the heretical discovery that a protein by itself can transmit an infectious disease. The discoveries of Herbert Boyer, Michael Bishop, Harold Varmus, and Stanley Prusiner show that ... *Paths to Innovation: Discovering Recombinant DNA, Oncogenes, and Prions, in One Medical School, Over One Decade (Perspectives in Medical Humanities)*
