by National Research Council : **Science, Medicine, and Animals**

ISBN : #0309088941 | Date : 2004-11-21

Description :

PDF-74699 | Diseases cause a staggering amount of suffering and death in both people and animals. As a result, human society has committed itself to alleviating this suffering. Toward this goal, biomedical research has included the use of animals as one component of research to understand, treat, and cure many human and animal diseases. Animals develop many of the same diseases as people, including hemophilia... *Science, Medicine, and Animals*
